Orders4U Application

Authors	Owen Lindsey & Brennan Bania
Course	CST-323
Instructor	Professor Sluiter
Date	23 January 2026

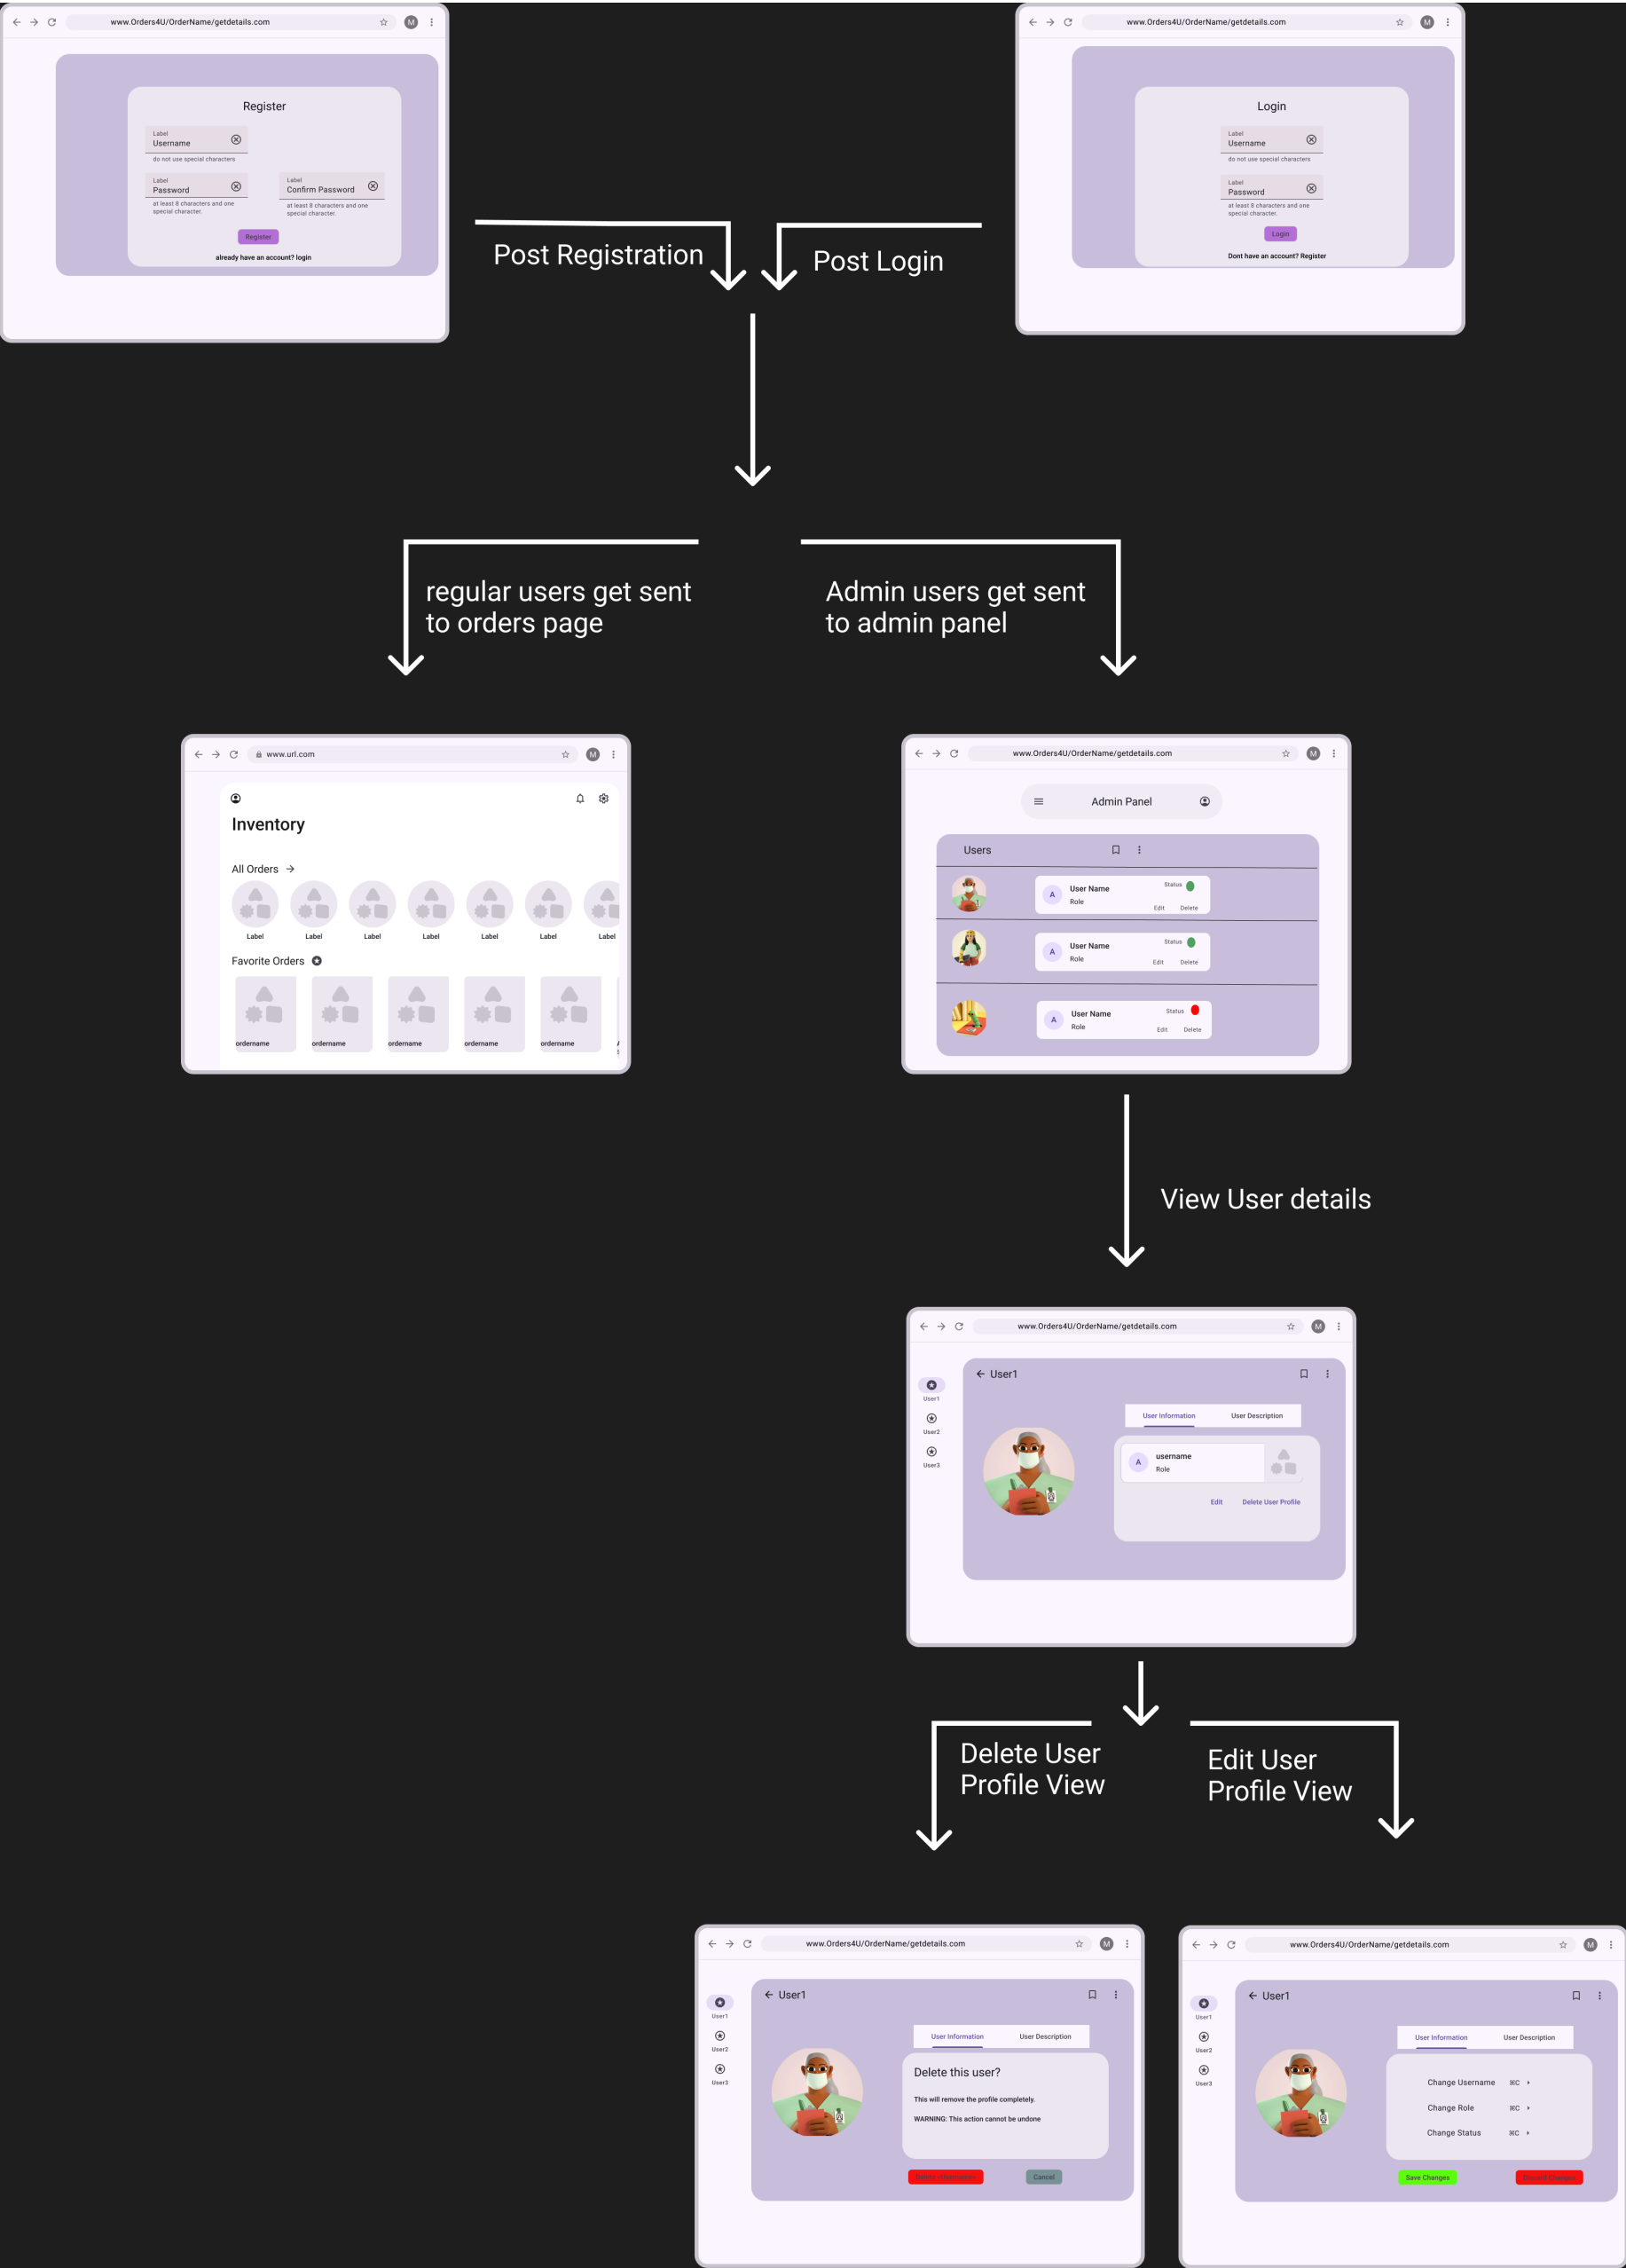

Document Purpose

This document contains wireframe specifications for each page in the Orders4U application. Wireframes define layout structure, form fields, buttons, and expected behavior for frontend implementation.

Table of Contents

- [Site Map Overview](#)
- [1. login.html](#)
- [2. register.html](#)
- [3. admin.html](#)
- [4. editUser.html](#)
- [5. confirmDelete.html](#)
- [Role-Based Navigation](#)

Site Map Overview

1. login.html

Centered login form with "Login" title. Displays error messages below the form when authentication fails.

Field	Type	Validation
Username	Text	Required
Password	Password	Required

Button	Action
Submit	Authenticate user credentials
Register	Link to register.html

2. register.html

Centered registration form with "Register" title. Validates password match and displays inline errors.

Field	Type	Validation
Username	Text	Required, alphanumeric
Password	Password	Required, 8+ characters
Confirm Password	Password	Required, must match password

Button	Action
Submit	Create new account
Login	Link to login.html

3. admin.html

Admin panel displaying all users in a list/grid format. Each row shows avatar, username, role, and status with action buttons.

Button	Location	Action
Edit	Per user row	Navigate to editUser.html
Delete	Per user row	Navigate to confirmDelete.html
Status	Per user row	Toggle enabled/disabled

4. editUser.html

Edit form for modifying user details. Header displays user avatar and username.

Field	Type	Validation
Username	Text	Required
Password	Password	Optional
Role	Dropdown	Admin / User
Status	Checkbox	Enabled/Disabled

Button	Action
Update	Save changes, return to admin panel
Delete	Navigate to confirmDelete.html

5. confirmDelete.html

Delete confirmation dialog displaying user info and warning message.

Button	Action
Confirm	Delete user, return to admin list
Cancel	Return to admin list

Warning displayed: "This action cannot be undone"

Role-Based Navigation

User Role	Post-Login Redirect
Admin	Home (with Admin Panel access)
User	Home (Inventory only)
